

Nationally Competitive Fellowships & Scholarships

If you have a strong academic record and a deep interest in a particular area of study or career path, you may be eligible to apply for one or more nationally competitive fellowships. In addition to high academic achievement, applicants for nationally competitive fellowships and scholarships should be prepared to showcase the many other aspects that make them a great candidate for a competitive scholarship or fellowship. Substantial experience with research or creative projects, evidence of strong leadership in and out of the classroom, involvement in public service opportunities, and strong, detailed letters of recommendation are all essential components to building a strong application for a prestigious award.

Many national fellowships require official endorsement from WPI, which entails an on-campus selection process. For more information, please contact Hallie Johnson at hjohnson1@wpi.edu for referral to the appropriate resources and nomination procedures.

Please note: Scholarship and fellowship availability is subject to change at any time.
