

Brookhaven National Laboratory (BNL) Science Undergraduate Laboratory Internship (SULI)

The United States Department of Energy (DOE) has established a National program entitled the Science Undergraduate Laboratory Internship (SULI) (formerly known as the Energy Research Undergraduate Laboratory Fellowship Program ERULF). Under it, Brookhaven National Laboratory (BNL) and ten other laboratories will be offering student appointments for the summer. Selected participants will be associated with members of the Brookhaven National Laboratory scientific and professional staff in an educational training program developed to give research experience in areas of chemistry, physics, engineering, biology, nuclear medicine, applied mathematics, high and low energy particle accelerators, and science writing.
