Microfridge

Microwave and refrigerator rentals made easy!

Microfridge combines a mini fridge and microwave that is approved for campus housing. Bringing a refrigerator and microwave on move in day can be a hassle.

Microfridge makes it easy by delivering your unit before you arrive to campus and pick it up at the end of the year.

Storage Made Simple

Boomerang Storage will pick up your items right at your room at the end of the year and deliver them directly into your new room at the start of the next semester.

Their easy storage solution is convenient for students and makes the move-in/move-out process even easier!

Linens and Room Essentials with Dormify

This year, we've partnered with Dormify, the one-stop shop for college, to help you easily find everything you'll need for your room. From bedding + dorm bundles to storage essentials + trending decor, we've curated all of the school-approved items you'll need to make your transition to college easy. Start shopping + get ready for move-in day!

Our residence halls and apartments contain extra-long beds (36" by 80") which require special linens to comfortably fit the mattresses. While extra-long sheets are available in stores, we have made arrangements with Residence Hall Linens by Dormify to provide you with the option of ordering linen sets through the mail. Residence Hall Linens will provide you with high quality, extra-long linens, mailed to your home or on-campus address.

GradGuard

GradGuard's innovative insurance and student benefits renters insurance programs, are available through select a service of Next Generation Insurance Group LLC, a insurance marketing platform that enables consumers insurance protections they need to overcome unexpected
