

Robert Bosch Foundation Fellowship Program

The Robert Bosch Foundation sponsors a Fellowship Program to enable young American professionals to participate in an intensive work and study program in Germany. Although a prime goal of this program is the advancement of American-German/European relations, it also contributes to the participants' professional competence and expertise, and broadens their cultural horizons. The program strives to provide young American professionals (23-34) with executive level internships in the federal government and private sectors in Germany. Seminars in Berlin, Frankfurt/M. and Munich as well as visits to Poland, the Czech Republic, Belgium and France provide a meaningful understanding of issues facing the European Union and Germany today. Candidates are competitively chosen from the fields of business administration, economics, journalism and mass communications, law, political science and public affairs/public policy.
