

WPI Mobile App

We're Mobile

WPI's app has been revamped with customized experiences for current students, alumni, faculty and staff, and visitors, as well as attendees of major campus events like Commencement and New Student Orientation. Whatever your role, get what you need all in one place—directories, scheduling links, calendars, maps, menus, videos, the latest campus news, and more. It's all of WPI, all at your fingertips; grab your phone and start exploring.

As with all mobile apps, updates and enhancements are constantly being deployed. Feedback is also encouraged to help drive the development of future releases of the app. If you have any suggestions or comments, please complete [this brief feedback survey](#).
