

Australian International Postgraduate Research Scholarship

The purpose of the International Postgraduate Research Scholarship (IPRS) Scheme is to attract top quality overseas postgraduate students to areas of research strength in higher education institutions and to support Australia's research effort. Prospective students apply directly to the institution of their choice. When seeking enrolment, they should indicate their interest in applying for an IPRS. The institution will then provide appropriate application forms. The closing date for applications is set by individual institutions. Most institutions will set a closing date in September or October, but some may require that applications be submitted earlier. Applications must be sent to the institutions at which study is to taking place.
