

Anti-Hazing Policy

In compliance with federal and state hazing laws, WPI prohibits hazing of any sort whether by organizations or individual students. At WPI, the safety and dignity of every member of our community are of the utmost importance. Hazing in any form is strictly prohibited. WPI expects that everyone will behave in a manner that supports community, a sense of belonging, and inclusion without the involvement or participation in activities that are at the expense of someone's physical safety or emotional well-being.
