

Upper-Level Students

Living on campus and taking advantage of the many resources available to you while at WPI is part of the experience. According to the American Council on Education, college students who live on campus are more satisfied with their experience, earn higher grade point averages, and are more likely to graduate. There are many worthwhile options to choose from during your student years, both within the residence halls and in our community neighborhoods.

Our main priority is to ensure that students are provided with an opportunity to have a community of peers, share learning experiences with hall and floor mates, and get involved with the many University-wide activities and opportunities available.
