

# Josephine De Kármán Fellowship

The Josephine De Kármán Fellowship Trust was established in 1954 by the late Dr. Theodore von Kármán, aeronautics expert and director of the Guggenheim Aeronautical Laboratory at the California Institute of Technology, in memory of his sister, Josephine, who died in 1951. The purpose of this Fellowship program is to recognize and assist students whose scholastic achievements reflect Professor von Kármán's high standards.
