

WPI MyTrips Travel Registry

Register your travel for peace of mind and expedited access to critical resources. Registration of your WPI-sponsored travel pre-authorizes the use of the medical, security and travel services of International SOS while abroad. International SOS is WPI's international travel medical and security assistance partner and facilitates access to critical international insurance coverage and emergency medical and security assistance during your travels.

Please email global@wpi.edu with any questions about the registry. You may also arrange a time for the Director of Global Risk Management to visit your department/unit or arrange a 1:1 training on the registry.

For information on the services provided by International SOS and for information on WPI's international travel medical insurance please visit [International SOS: 24/7 Travel Assistance](#).

For more information see the [International Travel Registration Policy](#) page.
